## Severe Weather Outlook Saturday, September 25, 2021

# Hazardous Weather

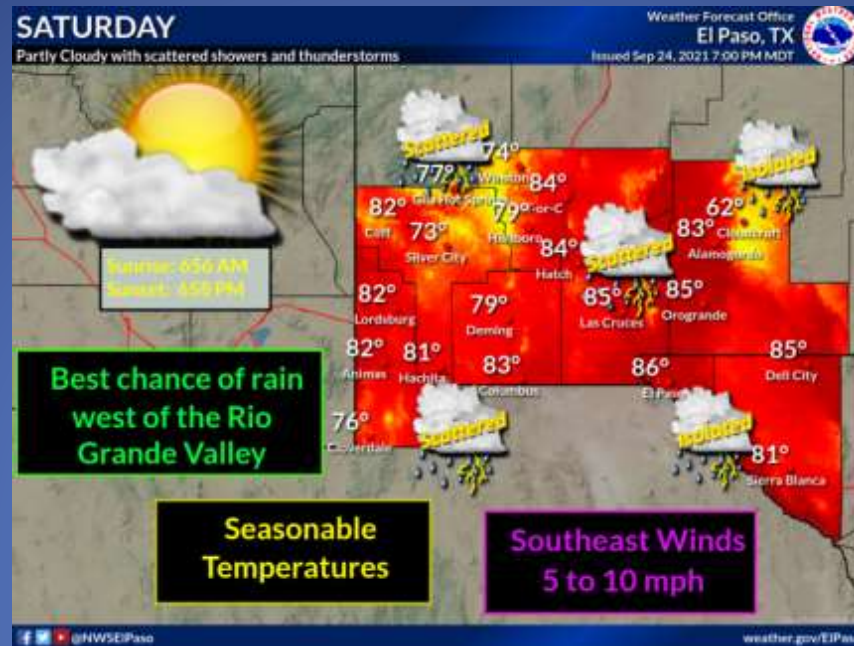

An upper low over the Baja Peninsula will continue to stream some moisture up over our area. Hence scattered showers and thunderstorms are possible, with the best chance west of the Rio Grande Valley. High temperatures will be near normal.

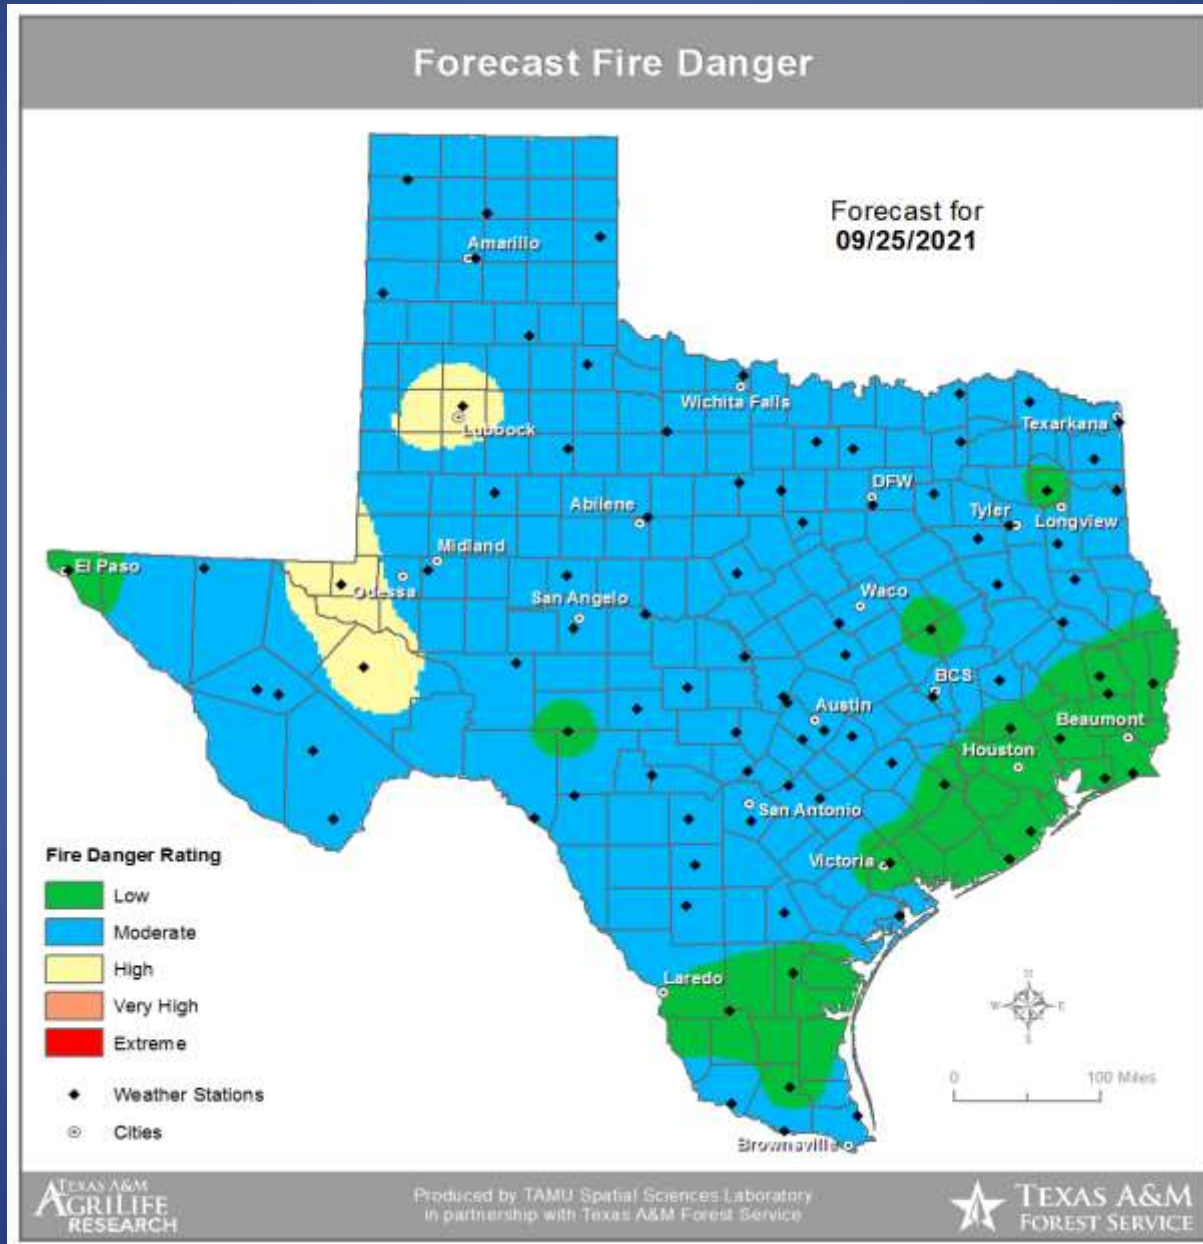

Atmospheric conditions are expected to be favorable for producing high levels of ozone air pollution in the Dallas-Fort Worth area on Saturday. You can help prevent ozone pollution by sharing a ride, walking, riding a bicycle, taking your lunch to work, avoiding drive-through lanes, conserving energy, and keeping your vehicle properly tuned.

# Hazardous Weather

An upper low over the Baja Peninsula will continue to stream some moisture up over our area. Hence scattered showers and thunderstorms are possible, with the best chance west of the Rio Grande Valley. High temperatures will be near normal.
